PERSONAL PROJECTS

Personal Portfolio

- A responsive portfolio website developed using HTML and CSS. It features a clean and modern layout with interactive navigation. The site includes sections for showcasing projects, highlighting skills, and providing contact information. Designed to be visually appealing and user-friendly, it aims to attract potential employers and demonstrate professional abilities.

Guess The Number Game

- "Guess the Number" is a C++ game where players try to guess a randomly generated number within a specified range. The game provides feedback on whether the guessed number is too high, too low, or correct, encouraging players to adjust their guesses. It's a fun way to practice logical thinking and improve programming skills.

Calculator

- A simple calculator built using HTML and CSS, featuring a clean and intuitive design. The interface includes buttons for digits, basic arithmetic operations, and a display screen. Styled with CSS for an appealing look and responsive layout, it performs basic calculations such as addition, subtraction, multiplication, and division.
